## **Archangel Azrael**

The words associated with this Archangel are **truth, insight, understanding** and **strength**.

Azrael is a powerful Angel who teaches about truth and illusion and the cycles of life and death to bring strength of soul and spirit and helping to transcend your fears and doubts. Call on this Angel in times of grief for love, comfort and strength and understanding.

I like to use the imagery of a grape vine and imagine the gnarled stump with little signs of life. Soon the leaves break forth and the verdant vines are full of grapes, which in turn are harvested and then turned into wine, before the vine dies and waits for a new season. I often use grapes when I am making this archangel.

The colours associated with this Archangel are **burgundy and magenta**.

## **Archangel Asariel**

The words associated with this Angel are **emotions, dreams, intuition** and **creativity**.

Asariel has dominion over all the waters of the world and the wonderful abundance of life within and so nurtures and guides the deep ocean of your spirits. Archangel Asariel watches over your emotions and the ebb and flow of your life, encouraging creativity from the heart and teaching through dreams and inner wisdom, understanding and spirituality.

The colours associated with this Archangel are **aqua and blue**.
