

People often ask me which Angel they need for a particular situation as it's sometimes difficult to know which Angel to call upon. Remember Angels and Archangels already know what you need or want help with, but they cannot help unless you ask them. Some people do invocations and ask for the Angel three times e.g. Gabriel, Gabriel, Gabriel, please could you.....

I prefer to just talk to the Angels as if I was having an everyday conversation.

Katharine, who designed all the cards and bookmarks on my website calls them 'the boys' and then asks for healing or help etc. So it best to use a way that is comfortable for you. Don't forget to say thank you as sometimes things will happen really quickly and you may be surprised and forget!!

I have created a table with various qualities that you may wish to bring into your life and below each one you can see the Archangels that are waiting to help you.
